## PROFESSIONAL EXPERIENCE

---

### Software Developer, Financial One Credit Union

August 2019 – Current

Assisted in the design and development of internal and external solutions and for a growing financial services company. Achievements:

- Designed and developed the front-end of an internal portal for loan and account applications that helped streamline processes for financial service staff.
- Contributed software engineering expertise in the development of products through the front-end of the software lifecycle.
- Excelled in application development and management of technological issues for assigned projects.
- Introduced methodologies and best practices that enhanced product definition.

### Marketing Manager, Neighborhood National

September 2016 – August 2019

Managed all marketing functions using both traditional and non-traditional marketing tactics for a small financial institution. Achievements:

- Designed the online banking service and website utilizing programming expertise and focusing on user experience
- Eliminated certain marketing tools, including a 3<sup>rd</sup> party social media presence, that were ineffective and replaced them with more effective tools saving the company \$20k+ per year
